Class III - TANNING FACILITY CONSULTATION AND OPERATOR TRAINING

- Consultation Service (Quality Assurance, Health Physics, etc.)
- Tanning Operator Training

SUPPORTING INFORMATION NEEDED:

CLASS I & II applicants must certify knowledge of familiarity with the rules and regulations, which govern the possession, sale and installation of tanning equipment or it’s components in North Carolina.

CLASS III applicants must also certify knowledge of familiarity with rules and regulations, which govern consulting activities and tanning operator training in North Carolina.

CLASSES II & III applicants must include documentation of any training or certifications and experience which are applicable (servicing, educational qualifications for consultants, etc.) for individuals covered by this application. Each person or company offering tanning operator training designed to meet the requirements of **15A NCAC 11 .1418 (h)** must have approval from the Division of Radiation Protections prior to conducting such training in North Carolina.

I certify that the individual(s) named in this application is/are familiar with the requirements of 15 A NCAC 11 Section .1400 “Tanning Equipment Services” and that the sale, installation, training, and/or service will performed in accordance with the North Carolina Tanning Regulations.
